Attachments: Quarterly FSAB Report 2-08 .doc

Chuck,

For your review.

For the first two quarters of FY08

Completed Cases = 13,796 (21,571 items)
TAT = 67 days
Backlog (Dec.31, 2007) = 4,736 cases (7,461 items)

The last report says 15.5 FTEs (including 3 in Amherst). Is that still correct?

Sharon will know how to do the next one, she'll have to combine the reports from the old and new programs.

Cam

The next Forensic Sciences Advisory Board meeting is 5/19. Can you please provide some updated stats for this meeting by Thursday of this week?

Thanks,
Julie

PS The meeting is here, so I've offered a tour of the lab afterwards. I think it will be a stark contrast to the Crime Lab. Please ask the staff to rid the area of extraneous things like newspapers, empty cans etc. I hope the safe is overflowing. ;)

John,

I am forwarding your query to Julie. Sorry to say that I will be in St Louis next week and miss your visit.

Can you give me updated numbers – end of FY 08 Q3 (3/31) – for the FSAB meeting next week. I still need to revise the format of this chart but is at what at least some th members are looking for.
